Announcements

Shareholder Forum Invites Council Participation in Say-On-Pay Survey. The Shareholder Forum has just initiated an independent survey of a wide sampling of marketplace investors to help participants in its "Say on Pay Program" <http://www.shareholderforum.com/sop/> understand what information corporate managers and research professionals should be providing to investors who are making proxy voting decisions on executive pay. Council members interested in participating in the survey may do so [here](#).

If sufficient Council members take the survey to provide statistically meaningful data, the forum will report on how members' responses compare with those from the broader marketplace of "average investor" views. Results of the survey also will be posted [here](#) on the "Say on Pay 2009 Clearinghouse Web site."
