

Transform 500 ETF (VOTE)

Fact sheet as of 6/22/21

VOTE is a large-cap equity index fund with a strategy to drive positive impact for employees, customers, communities and the environment as an active owner who votes our shares accordingly.

Why VOTE?

- VOTE offers low-cost exposure to the top 500 US companies, as measured by free-float market capitalization
- The manager seeks to drive positive social and environmental impact at the companies owned in the portfolio as an active owner
- The manager intends to vote shares in line with its investment philosophy that a company's investments in employees, customers, communities, and the environment affect its long-term value

Our Active Ownership Principles

The Engine No. 1 active ownership strategy offers something completely new to many index investors — the opportunity to drive positive impact across the economy by focusing on the social and environmental issues that can affect a company's long-term value. Our strategy includes:

1. **Votes we cast:** Strategically hold companies and leadership teams accountable while focusing on environmental, social, and governance issues that create value.
2. **Campaigns we run:** Actively work with companies to strengthen the investments they make in stakeholders to drive company performance.
3. **Investors we bring with us:** Build platform to better serve investors' long-term interests, enabling them to be part of our mission.

Engine No. 1 was founded in 2020 by a team of builders, investors, and creators who believe that you must engage to effect change. We launched the Engine No. 1 Transform 500 ETF to harness the power of investors — the power to create good jobs, reverse climate change, fight gender and racial injustice, and bring greater accountability to the economy's largest companies. Important Information

Carefully consider the Transform 500 ETF (the "Fund's") investment objectives, risk factors, charges and expenses before investing. This and additional information can be found in the Fund's prospectus, which may be obtained on our website (<https://etf.engine1.com>). Read the prospectus carefully before investing.

Investing involves risk, including the possible loss of principal. Shares of any ETF are bought and sold at market price (not NAV), may trade at a discount or premium to NAV and are not individually redeemed from the Fund. Brokerage commissions will reduce returns.

Key Risks: The Fund is not actively managed, and the investment adviser, Fund Management at Engine No. 1 LLC, generally does not attempt to take defensive positions under any market conditions, including declining markets. The Fund may be subject to tracking error, which is the divergence of the Fund's performance from that of the Underlying Index. Large-capitalization companies may be less able than smaller capitalization companies to adapt to changing market conditions. The Fund can have exposure to derivative instruments. Please see the prospectus for a full list of fund risks.

When the Fund engages in activism, such activities may not be successful, or even if successful, the Fund's investment may lose value. Additionally, engaging in activism may cause the Fund to incur additional expenses that another similar index fund may not experience. In addition, while Engine No. 1 may seek an active ownership approach, there are regulatory restrictions applicable that may limit the nature and extent of engagement in certain circumstances. Nonetheless, Engine No. 1 intends to seek opportunities where possible to employ its active ownership beliefs, while being mindful of such regulatory limits.

An outbreak of an infectious respiratory illness, COVID-19, has resulted in significant economic impacts. Other infectious illness outbreaks in the future may result in similar impacts. Diversification does not assure a profit or protect against a loss in a declining market. It's not possible to invest in an index. Distributed by Foreside Financial Services, LLC
